About NexGen Build Company

NexGen Build Company is a leading provider of comprehensive construction services, specializing in delivering excellence across multiple construction disciplines. With years of experience and a team of highly skilled professionals, we have established ourselves as a trusted partner for commercial, residential, and industrial projects.

Our commitment to quality, safety, and timely delivery has earned us a reputation for excellence in the construction industry. We combine modern techniques with proven methodologies to ensure every project meets the highest standards.

Our Services

NexGen Build Company offers five specialized service divisions, providing integrated construction solutions from foundation to finish

General Construction

Complete structural construction and site development services.

Electrical Services

Full electrical system installation and maintenance solutions.

Sanitary Services

Comprehensive water supply and drainage systems.

HVAC Services

Advanced climate control and ventilation installations.

Waterproofing Services

Professional protective coating and sealing services.

Fire Fighting System

General Construction

Our Civil Works division provides comprehensive construction services including:

Electrical Services

Complete electrical installation services for all types of facilities:

01

Electrical System Design

Comprehensive planning and layout design

02

Power Distribution

Main panels, sub-panels, and circuit breakers installation

03

Lighting Systems

Interior, exterior, emergency, and decorative lighting

04

Backup Power Solutions

Generator and UPS system installation

05

Cable Management

Professional routing and containment systems

06

Testing & Certification

Safety inspections and compliance certification

Sanitary Services

Professional plumbing services for residential and commercial projects

01

Water Supply Systems - Complete pipe network installation and distribution for reliable cold and hot water delivery across buildings.

02

Drainage & Sewage - Efficient wastewater management systems with properly graded drains, traps, and venting to prevent backflow and odors.

03

Sanitary Fixtures - Installation of toilets, sinks, faucets, and fittings, ensuring secure connections and water-tight seals for long-term use.

04

Hot Water Systems - Water heaters and solar water heating installation, including tank and tankless systems, piping, and safety controls.

05

Rainwater Harvesting - Eco-friendly collection and storage systems for irrigation and non-potable uses, with filtration and overflow protections.

06

Maintenance & Repair - Leak detection, pump installation, and servicing to restore system performance and prevent future failures.

HVAC Services

Advanced heating, ventilation and air conditioning solutions:

Air Conditioning

Installation – Central AC, split systems, and VRF technology

Ventilation Systems -

Fresh air intake and exhaust system design

Heating Solutions -

Complete heating system installation and control

Ductwork & Distribution -

Professional duct fabrication and installation

Energy Efficiency -

Sustainable HVAC designs reducing operational costs

Maintenance Contracts -

Regular servicing and performance optimization

Fire Fighting System

NexGen Build Company provides **comprehensive fire fighting and fire protection solutions** designed to safeguard lives, property, and assets.

We specialize in the design, supply, installation, testing, and commissioning of advanced fire protection systems in compliance with international standards.

Our team of experienced engineers and technicians ensures reliable and efficient systems tailored to each project requirement.

Our Services

- » Fire Fighting System Design & Engineering
- » Fire Sprinkler Systems
- » Fire Alarm Systems
- » Fire Hydrant & Hose Reel Systems
- » Fire Suppression Systems
- » Fire Pumps Installation
- » Fire System Control Panel
- » Testing & Commissioning
- » Annual Maintenance Contracts (AMC)

Waterproofing Services

Specialized waterproofing solutions protecting your investment:

- 01 **Foundation Waterproofing** – Comprehensive basement and foundation protection
- 02 **Roof Waterproofing** – Membrane installation and liquid coating application
- 03 **Wet Area Sealing** – Bathroom, kitchen, and wet area waterproofing
- 04 **Tank & Reservoir Sealing** – Water tank and pool waterproofing services
- 05 **Joint Treatment** – Expansion joint sealing and crack repair
- 06 **Protective Coatings** – Advanced coatings preventing water damage and deterioration

Why Choose NexGen Build Company

Specialized waterproofing solutions protecting your investment:

Integrated Expertise

Five specialized divisions under one roof

Certified Professionals

Experienced and qualified technical team

Quality Assurance

Premium materials and modern construction methods

Safety Compliance

Strict adherence to safety standards and codes

Timely Delivery

Efficient project management and transparent communication

Client Satisfaction

Competitive pricing with comprehensive warranty support

NexGen Build CNC Laser Cutting Machine Workshop

NexGen Build is a premier industrial solutions provider based in, **Dammam**. We specialize in high-precision **CNC** Laser Cutting, Engraving, and Advanced Routing services, catering to the evolving needs of the construction, oil and gas, and architectural sectors in Saudi Arabia.

With a commitment to technical excellence and operational reliability, we bridge the gap between complex engineering designs and high-quality physical components. Our facility is equipped with state-of-the-art **Fiber Laser** technology for superior metal fabrication for intricate non-metal processing, ensuring that every project from heavy-duty industrial brackets to detailed architectural partitions is executed with micron-level accuracy.

At NexGen Build, we pride ourselves on:

01

Precision Engineering: Utilizing advanced CNC protocols to achieve tolerances as tight as possible.

02

Material Versatility: Expertise in processing Stainless Steel, Carbon Steel, Aluminum, Brass, Acrylic, and Wood.

03

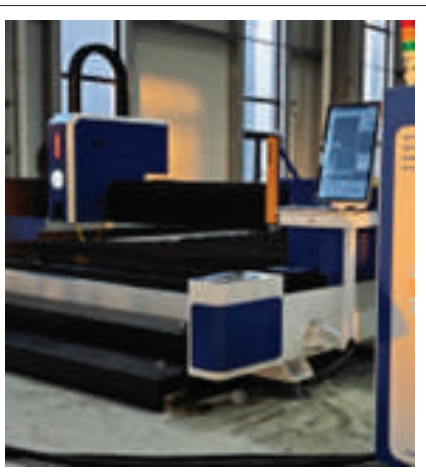

Efficiency & Innovation: Leveraging smart nesting software to minimize material waste and optimize production costs for our partners.

05

Local Expertise: Operating with a deep understanding of the Saudi industrial landscape and a commitment to supporting the region's infrastructure growth.

NexGen Build stands as a trusted partner for developers, contractors, and designers seeking a seamless transition from CAD concept to finished product. We are more than just a workshop; we are a precision manufacturing partner dedicated to building the future of the Kingdom.

A CNC laser cutting machine turns digital designs into perfectly cut metal parts automatically.

CNC Laser Cutting Lathe Machine

— What It Does

Cutting Metal Sheet with Laser:

A powerful laser beam melts and cuts through metal

Produces clean, sharp edges

Works on steel, stainless steel, aluminum, etc.

Creating Detailed Designs

Cuts complex patterns and designs Used for:

Decorative panels

Gates & screens

Interior design elements

Producing Industrial Parts

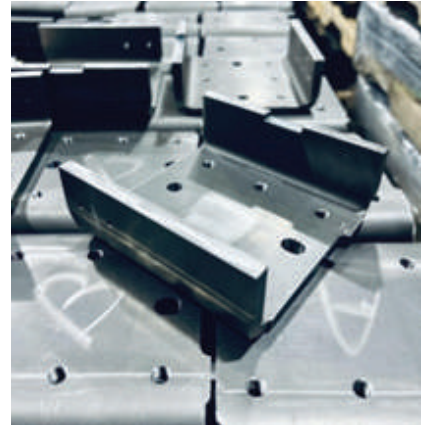

Makes accurate machine parts

Perfect for factories and construction

Same design can be repeated many times exactly

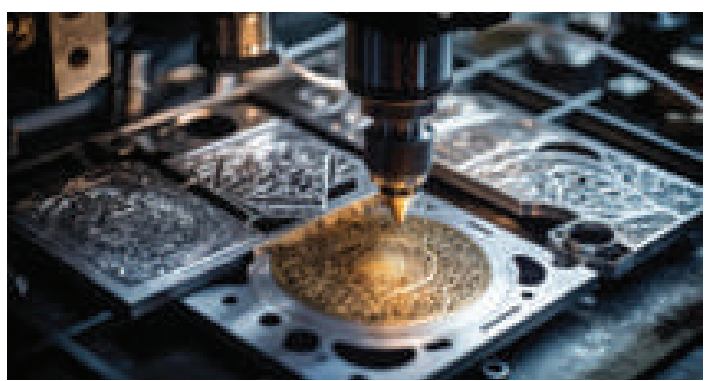

Engraving & Marking

Engraves logos, text, and numbers

Used for branding and identification

Lathe Machine Workshop What it does ...

Online Leak Repair Clamp

The online leak repair clamp is a specialized tool used for quickly sealing leakages during online maintenance of equipment or flange, pipe, Tee, elbow, valve. Such sealing clamp can be used to effectively repair leak by applying pressure to the leaking area to fill the leaking area with the proper leak repair clamp and proper sealing compound. Specifically, pressurized online leak repair clamp typically consists of the following two functions facilities across Saudi Arabia.

01

Clamping Mechanism:

Responsible for clamping the leaking area to ensure a tight fit of the sealing compound.

02

Pressure Supply:

Provide appropriate pressure to ensure the leak sealing compound to full fill the leakage channel in the clamp.

MetalFabrication & Engineering

Metal fabrication is the creation of metal structures by cutting, bending, and assembling processes. A value-added process involving machines, parts, and structures from raw materials. We employ welding, cutting, forming, and machining with both human expertise and automation.

**Welding, cutting,
forming &
machining**

**Engineering
drawings & job
bidding**

**Office buildings
& storage
structures**

**Crane girders &
pipe racks**

Comprehensive Welding Services

Our highly skilled welders provide premium specialty welding services using multiple advanced welding processes including FCAW, SMAW, GTAW (TIG), GMAW (MIG), and SAW, achieving weld rejection rates under 1%.

- 01 AWS certified welding processes
- 02 Pipe welding for oil & gas, plumbing, construction
- 03 Structural steel welding & pressure vessel welding
- 04 Full range of materials: carbon steel, stainless steel, alloys
Leak-free, seamless welds meeting industry standards.

CNC & Manual Machining

Our advanced machine shop offers both CNC and manual machining for precision engineering. We produce high-quality, tight-tolerance components to meet diverse industrial needs. Each project is handled with accuracy, consistency, and attention to detail. Our specialized capabilities allow us to handle complex parts and custom requirements.

Turning of large components

Manufacturing dies and moulds

Machining of pump and valve components

Metal frames, fixtures and brackets.

Custom designed adaptors, nuts, stud/bolt

Complicated pressure equipments

Maintenance & Online Leak Repair

Complete maintenance and specialized online leak repair services for boilers, heaters, power plants, and industrial equipment using our proprietary clamping technology—no shutdown required

Online leak
sealing (zero
downtime)

Boilers,
heaters &
power plants

Custom clamp

24/7 support

Saudi Aramco E-Reference No. 0017470

Registration Approval Letter

March 30, 2026

Attention : NEXGEN BUILD COMPANY

CR Number : 7051557606

Supplier Type: Service Provider Only

Country : Saudi Arabia

We are pleased to inform you that NEXGEN BUILD COMPANY is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10119021, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center 800-116-1168 for In-Kingdom suppliers or +966 (11) 290-8950 for Out-of-Kingdom suppliers.

Abdalhadi Shahadh Alshammari, Supervisor
Supplier Registration Unit
Supplier Relationship Management Div

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (9COMs and 9CATS)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at supplierhelpdesk@aramco.com

Subject: Approved: Supplier registration with Saudi Energy

Registration with Saudi Energy.

Congratulations! Saudi Energy has approved your supplier registration. NexGen Build Company has now been included in the supplier database of Saudi Energy.

You will be notified when next steps of the supplier onboarding process require your attention.

You are receiving this email because your customer, Saudi Energy, has identified you as the appropriate contact for this correspondence. If you are not the correct contact, please contact Saudi Energy.
